

The Secret's Out!

Champion Growers Use Monty's

James Moser with the 14 lb. cabbage he grew with Monty's Joy Juice.

No matter what you grow, grow a winner with Monty's Joy Juice. That's the word from gardening enthusiasts, champion growers, commercial greenhouses and farmers. Monty's Plant Food is a naturally derived liquid plant food. It contains a unique processed humic acid which buffers against burning and acts as a soil conditioner. This unique product supplies and enables essential natural nutrients to be used by the plant, promoting stronger, more efficient growth – stronger rooting

systems, better utilization and uptake of soil nutrients. Monty's can be used in the root zone or as a foliar spray. It is a very concentrated plant food of unsurpassed quality at an unparalleled price.

Monty's company is committed to utilizing the best resources and latest technologies to produce products that assist in promoting a better environment with more efficient and better yielding plants.
